EXPERIENCE

Product Engineer, TheBlaze, NYC, NY (February 2015-October 2018)

As a Product Engineer at TheBlaze my main role was to develop front-end and back-end features for www.theblaze.com and premium.theblaze.com/tv, as well as features for TheBlaze Android app. My responsibilities and successes were:

- Developed extensive front-end features using HTML5 / CSS3 / SASS / ES6 / Handlebars / NPM / Grunt / cross-browser, mobile compatibility, and performance optimization
- Developed content management plugins with React / Redux / Jest and Backbone.js
- Built a custom testing suite that utilized Codeception and Selenium for unit, functional, and acceptance tests and emphasized Test Driven Development
- Built a Docker container and configuration script to run Codeception in Bitbucket Pipelines CI
- Contributed features and testing to two REST APIs based on Yii and Rails 5
- Created a custom video analytics data reporting system with ES6, JWPlayer, Google Analytics
- Developed features for TheBlaze Android app with Java / Kotlin / Android Studio
- Delivered project goals by collaborating with team members using Git, Jira, Agile, and Slack

Digital Media Developer, Sametz Blackstone Associates, Boston, MA (May 2012-June 2014)

- Developed front-end and LAMP / CMS based backend for mobile responsive websites

Interactive Media Developer, Transmyt Marketing, Boston, MA (April 2011-April 2012)

- Developed e-commerce, service-based websites utilizing front-end and LAMP best practices

Freelance Web Developer, Various Clients (2010-February 2015)

- Responsible for HTML5 / CSS3, JavaScript, CMS and responsive development
